

## **Part Time Web Graphics Designer**

Languages: Fluent in English

An IWD designer needs to be able to create all visual elements of a website. Also, you may have the opportunity to work on other design projects such as: promotional material, print ads, logos, and anything visual by nature. Candidates must be comfortable working on numerous projects simultaneously. It is important to remain flexible with design requests and the ability to deliver unique pieces given limited information.

### **Required Skills:**

3 – 4 YEARS OF GRAPHIC DESIGN

- BA/BS degree, degree in graphic design / multimedia design or equivalent.
- Attention to detail, professional, and attentive with the ability to multitask
- Ability to work well individually or within a team
- Ability to visualize the final product and plan and execute to achieve desired goal
- Ability to create quickly
- Knowledge of professional layout and efficient means to display information
- Experience in the use of standard web editing tools such as Dreamweaver, Photoshop, Fireworks, Flash, and Illustrator.

### **Responsibilities:**

- Creation of website design and layout
- Design of graphics from scratch
- Manipulate existing graphics
- Optimize graphic file-sizes for web
- Ability to incorporate new technologies requirements into design.
- Manage multiple projects to meet deadlines with minimal supervision.
- Work productively and cooperatively as part of a team to accomplish tasks.

Compensation: Commensurate with experience
